

**15th Convention and Workshop of the International
Network of Sport and Health Science**
Wednesday 5th - Saturday 7th of June 2019

LAS PALMAS GRAN CANARIA

INVITATION

CABILDO DE GRAN CANARIA

Organised by

**Olympic Studies Centre of the Universidad de Las Palmas de
Gran Canaria (ULPGC) and INSHS**

The event includes two-part programs:

1.) The Convention

We are expecting here all “*already*” existing partners who have ever has been involved anyway with INSHS and new partners, colleagues, researchers from different universities from and outside Europe. The convention provides an excellent opportunity for networking in a very nice and pleasant environment.

On the annual meeting has following main goals: a.) discussing/introducing further international academic and university cooperation possibilities, programs, projects on the field of sport science and university sport, b.) discussing INSHS issues to improve the effective operation of our organization.

2.) The Workshop “*Current Issues in Sport Science*”

One day mini- sport scientific conference about current researches, research projects. 20 minutes (oral presentations- 5 minutes discussion), and e-posters.

We are looking forward to welcoming you in **Gran Canaria** in June!

About INSHS

www.inshs.net

<https://www.facebook.com/inshs.page/>

What does it mean, “Networking”? It means thematic collaboration/cooperation between partners. It also means saving money, time and having efficient communication. Further

advantages for network partners are: no obligations, no paperwork, no participation fee. It provides easily access to international projects, programmes and promoting international programmes events in the most efficient way and not just only online.

International Network of Sport and Health Science (INSHS) is a perfect example for a good operating higher education thematic network. It has been established in 2005 by the Institute of Sport Science of University of West- Hungary (former Berzsenyi College) Szombathely (Hungary). So far INSHS had partners from 41 partner institutions from 28 countries. The number of participant institutions are growing year to year. The partners are faculties, institutes, departments of HEI's which are involved in sport and health sciences. INSHS in partnerships with other international networks (Euro- American) as well.

The success of INSHS is marked by many thriving top level organized events, scientific projects international study programmes, student and staff activities over the last eight years. The representatives from the different university faculties /schools and institutions became not just colleagues, but also friends. The challenge of our network is to get more acknowledgement and popularity all over the world and to improve the effectiveness of co-operation between the partners.

INSHS will keep being an open, innovative network organization on the field of sport and health science for individual partners (colleagues, academic staff, researchers, experts) from different universities, organizations and networks.

Previously Conventions:

Szombathely, Hungary (2005) Magdeburg, Germany (2006), in Ljubljana, Slovenia (2007), in Bad Gleichenberg, Austria (2008), in Cardiff, Wales (2009), Telemark, Norway (2010), Tartu, Estonia (2011) and Zagreb/Opatija, Croatia (2012), Volos, Greece (2013), Alicante, Spain (2014), Alexandria, Egypt (2015, cancelled)., Brno (2016), Nancy, France (2017), Calpe (2018).

The strategic goals of INSHS

1. Improving academic and professional cooperation/collaboration activities among colleagues and higher education institutions (HEI's) and organisations/networks on the field of sport science (kinesiology).
2. Enabling formal project partnerships in areas or disciplines that are shared by different members of the network.
3. To provide useful information for students, academics, researchers on the field of sport science.
4. To enlighten future generations to international mobility and encourage students to participate to internationals events.

Fields of cooperation

- Common degrees, curriculum development
- Grants
- Staff and student mobility
- Research
- Publications
- Events

- Camps

Partner Institutions (from the beginning):

1. University of West- Hungary (Hungary) - coordinator institute
2. FH- Joanneum, (Bad Gleichenberg (Austria)
3. University of Primorska (Slovenia)
4. Otto - von Guericke University (Magdeburg- Germany)
5. University of Bologna (Italy)
6. Masaryk University (Czech Republic)
7. University Ljubljana (Slovenia)
8. University Zagreb (Croatia)
9. University of Alicante (Spain)
10. University of Valencia (Spain)
11. University Telemark (Norway)
12. University of Middlesex (UK)
13. University School of Physical Education Poznan (Poland)
14. University of Nancy (France)
15. Latvian Academy of Sport Education (Latvia)
16. Veliki Luki State Academy of Physical Education and Sport (Russia)
17. University of Thessaly (Greece)
18. University of Tartu (Estonia)
19. University of Salerno (Italy)
20. University of Enna (Italy)
21. University of Leszno (Poland)
22. University of Salerno (Italy)
23. University of Tallin (Estonia)
24. Lithuanian Sports University (Lithuania)
25. Academy of PE in Katowice (Poland)
26. Matej Bel University (Slovakia)
27. University of Lorraine (France)
28. University Catolica Valencia (Spain)
29. Hebei University (China)
30. Assuit University (Egypt)
31. Sarhad University of Science and Information Technology Peshawar (Pakistan)
32. Universite Paul Sabatier, Toulouse (France)
33. Sports University of Tirana (Albania)
34. University of Extremadura (Spain)
35. University School of Physical Education, Poznan (Poland)
36. University of Nis (Serbia)
37. Institute of Technology Carlow (Ireland)
38. University of Napoli Parthenope (Italy)
39. Collegio Pedro II, Rio de Janeiro, (Brazil)
40. Euro American Network (REMH), Rio de Janeiro (Brazil)
41. Dankook University, Gyeonggi-do (South Korea)
42. Academic Olympic Studies Center of University of Vigo
43. Academic Olympic Studies Center of University of Las Palmas de Gran Canaria

About Gran Canaria

Las Palmas de Gran Canaria is the most cosmopolitan city of the Canaries and one of the cities with the best weather in the world thanks to its exceptional location, next to the Tropic of Cancer, and to the trade winds that come from the northern Atlantic. The result is an average temperature of 17°C in winter and a 25°C in the summer.

Its privileged geographical location also makes it the European capital of the Mid-Atlantic as well as a cultural and economic link between Europe, Africa and America. It is the capital of the island of Gran Canaria and shares with Santa Cruz de Tenerife the capital of the Autonomous Community of the Canary Islands.

It is located on the northeast coast of Gran Canaria, 18 kilometres from the International Airport of Gran Canaria, whose flight connections place the island at just two and a half hours from Madrid, four hours from the main European cities, and six hours from America.

Las Palmas de Gran Canaria shows its richest identity through its port, the Port of La Luz and Las Palmas, which has shaped its character and its relevance due to the steady flow of people, goods, and services. It is a true sign of mixture and coexistence, of a welcoming and cosmopolitan city. It is the second entrance to the city. It is connected with 180 ports worldwide through 30 shipping lines. This is a reference port in cruise ships with around 800.000 visitors every year.

Las Palmas de Gran Canaria is the Sea City and is noted for beauty of its coastline. It boasts Las Canteras beach, one of the most famous urban beaches in the world thanks to its unparalleled and exceptional weather conditions. The indigo blue tones of the sea in Las Palmas de Gran Canaria are an open invitation to have a break and wind down, as well as offering a choice of water sports all year round.

Five beaches, a stunning seafront promenade and an internationally acclaimed regatta sailing course bear witness to the marine character of a city that forms part of the World Surf Cities Network.

It is a truly major tourist destination, while the Atlantic warmth of its people is universally recognized for their cheerful character and hospitality. Las Palmas de Gran Canaria has always been the cradle of tourism development in the Canaries. The city has adapted, and currently meets the demands of today's tourist sector by creating a growing leisure, congress, cultural and sports-oriented tourism. Many of these facilities are set in the vicinity of Las Canteras beach itself, along with the sports marina and the historic districts of Vegueta and Triana, making the city an attractive place for visitors to come to, both for business and for pleasure, as they can complement their agenda with a walk or a swim any time of the year.

About University

The University of Las Palmas de Gran Canaria as such was created in the 1989-1990 academic year, because of a major movement in society in Gran Canaria, which culminated when the Canary Islands Parliament passed the University Reorganisation Law on April 26th, 1989. This law brought together of the Canary Islands Polytechnic University (which was first set up in 1979 as the Polytechnic University of Las Palmas) with other university centres on Gran Canaria, the origins of some of which date back to the 19th century. The ULPGC is, thus, a modern institution with a long academic track record, committed to quality, efficiency and modernity. The ULPGC has more than 25,000 students and 1,500 lecturers. It has modern facilities and equipment, with Wi-Fi area in all its centres.

The organisation of the University is based on a number of different organs. The single-member bodies include those of the President, who is aided in his work by the Board. Collegiate organs include the Governing Council, the Social Council and the Senate, as well as the University Community Ombudsman.

The University of Las Palmas de Gran Canaria has invested a number of outstanding personalities as Doctors Honoris Causa, including a number of Nobel prize-winners, such as José Saramago and Rigoberta Menchú, the astronaut Miguel López Alegría, the tenor Alfredo Kraus and the linguist Eugenio Coseriu.

Research activities reflect the multi-disciplinary nature of our 36 Departments: 12 in engineering and architecture, 11 in science and health sciences, 6 in social and legal sciences and 7 in art and humanities. ULPGC research includes cutting-edge projects in such wide-ranging subjects as oceanography, marine science, aquaculture, computer robotics, nutrition, cancer, ITC, renewable energies, transport economy, business organization, town planning, translation and the history of the Canary Islands, among others.

Geographical location

The Tafira Campus is the most highly-populated of the ULPGC's campuses and is located some 10 kilometres from the city centre in a privileged setting in terms of its vegetation and its geographical setting.

The following degrees are taught on this campus:

School of Architecture : Degree in Architecture

School of Industrial and Civil Engineering : Degree in Civil Engineering, Degree in Industrial Design Engineering and Product Design, Degree in Industrial Organization and Technology Degree in Geomatic Engineering and Topography , Degree in Industrial Engineering , Degree in Naval Engineering, Degree in Chemical Engineering and Joint degree in Engineering in Industrial Organisation and Business Administration and Management, Joint degree in Telecommunication Technology Engineering and Business Administration and Management

School of Telecommunications and Electronic Engineering : Degree in Telecommunication Technology Engineering

Faculty of Physical Activity and Sports Sciences : Degree in Physical Activity and Sports Sciences

Faculty of Marine Science : Degree in Marine Science

School of Computer Engineering : Degree in Computer Engineering and Joint degree in Computer Engineering and Business Administration and Management

Faculty of Economic and Business Sciences: Degree in Economics, Degree in Business Administration and Management, Degree in Tourism, Joint degree in Business Administration and Management and Law

Faculty of Legal Sciences : Degree in Law, Degree in Industrial Relations, Degree in Social Work

General organisation

The Venue

Imperial Playa Hotel

- **Las Canteras beach / La Puntilla Area**
Ferreras Street, 1,
35008 Las Palmas de Gran Canaria - España
- Telephone: +34 92 8468854

HOW TO GET TO THE HOTEL

- **21.06 km** Aeropuerto de GRAN CANARIA
- **Taxi:** 28 minutes and cost 30 € aprox.
- **Bus:** line 60 to "Bus Station San Telmo and then, line 12

Accommodation & Meals

[Imperial Playa Hotel](#) was selected as the official hotel of the Gran Canaria Sports Science Week.

The hotel offers special rates to the participants in this Congress

Meals for members of INSS are paid by the organizations

Club Victoria offers special discount to participating student in this Congress
27 € per Day all inclusive!

Workshop

“Current issues in Sport Science”

Themes of the Conference:

- Sport Medicine
- Sport Training/Coaching
- Sport and Social Sciences
- Sport Management
- Olympic Movement, Olympism, Olympic Games and International Olympic Committee
- Healthy Lifestyle, Active aging, Recreation
- Sport Tourism
- Performance Analysis in Sport
- University Sport

Scientific Committee:

Chair: Prof. Mike Hughes (Carlow, EIRE)

Prof. Joel Gaillard (Nancy, France)

Prof. Henriette Dancs (Eotvos Lorand University, Hungary)

Prof. María José Martínez Patiño (University of Vigo, Spain)

Prof. José Antonio Pérez Turpin (University of Alicante, Spain)

Prof. Covadonga Mateos Padorno (University of Las Palmas de Gran Canaria)

Organization Committee:

President: Prof. Covadonga Mateos Padorno (University of Las Palmas de Gran Canaria)
General Director Executive: Prof. María José Martínez Patiño (University of Vigo, Spain)
Executive Committee President: Prof. Joel Gaillard (Nancy, France)
Secretary: Prof. Xesús Pena Pérez (Comité Pierre Coubertin)
.....?¿?¿?

Protocol and International affairs

Prof. Lourdes Trujillo Castellano (University of Las Palmas de Gran Canaria)

Deadlines:

Abstract Submission: 1st April 2019
Full paper submission: 1st June 2019
Contact: Xesús Pena-Pérez (jhse@ua.es)

Each author may only submit one abstract as first author. Co-authorship is allowed in four other abstracts. A Special Issue in Sports Science in *Journal of Human Sport and Science* will be published based in abstracts (oral presentation and e-posters) accepted by Scientific Committee in 2019.

Preliminary timetable

	4-June	5-June	6-June	7-June	8-June
	Tuesday	Wednesday	Thursday	Friday	Saturday
9:00-10:00	Arrival “Roll out red carpet!”	Opening act by CABILDO GC	Accreditation		Accreditation
10:00 –10:50		C Keynote Speaker: Jöel Gaillard University of Lorraine	Keynote Speaker Lecture: Luz Amelia Hoyos Cuartas Universidad Cenda Bogota	Keynote Speaker: Keynote Speaker: RFEA	Juan Carlos Álvarez <i>Universidad Europea and Royal Athletic Federation (RFEA)</i>
